3. Preview it in action
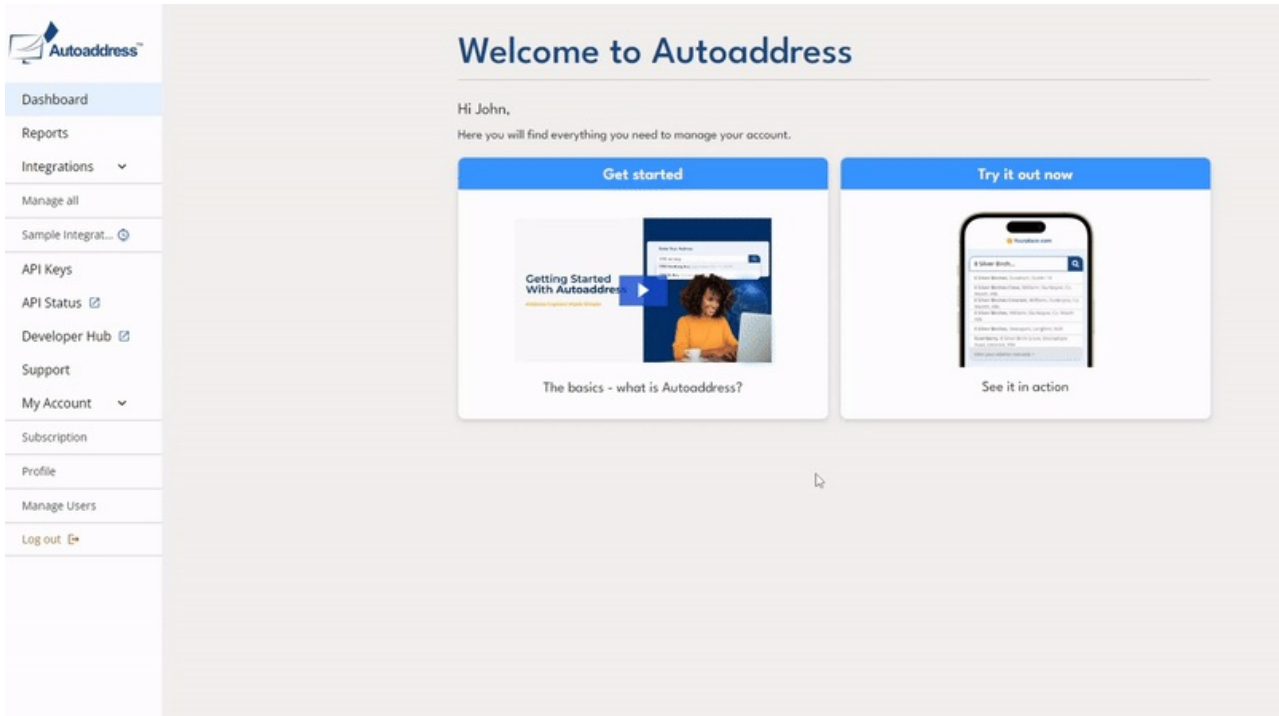

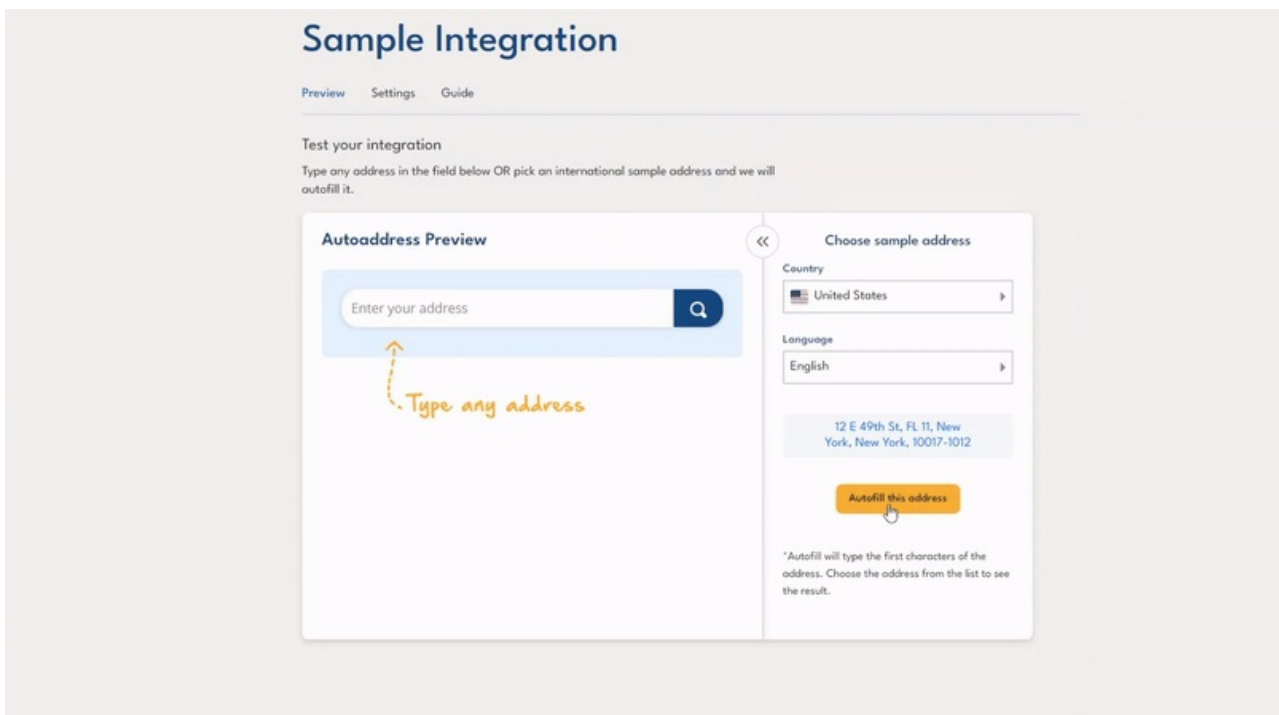

Click on the dashboard *Try it out now* panel to navigate to the preview setting of your Integration.

We've pre-selected every country so you can go ahead and type any address to see how it works.

We've included a simple World Sample Address selector on the right, just choose a Country and a Language and you'll see a sample address. Click on *Autofill this address* and we'll mimic a user in that country typing the address into our form so you can view their experience.

Alternatively, book a demo with one of our Product Experts here:https://autoaddress.com/rfq-form/
